

PUTTING THE COUNTY FIRST!

Legislators in Augusta have broken their promise of no new taxes or tax increases. This is unacceptable. And while we are all feeling the pinch of higher gas and home heating prices, Legislators in Augusta are spending and taxing blindly. They are just out of touch.

Descended from more than five generations of Mainers from the County to the Coast, I know that we Mainers are honest, proud, hard-working folks who want to keep what we earn. We are not looking for a government hand-out, just some relief from government: Relief from oppressive and ever-increasing taxes, from the highest insurance rates in the country, and from escalating energy prices.

And we know how to keep a promise.

I promise to work hard for you in Augusta. I will take your concerns very seriously and will work diligently to protect and improve our quality of life. The time is now for Augusta to start respecting the family and small town life in all its aspects, from our jobs and our pocketbooks to our schools and our children's futures.

I would appreciate your vote on November 4th.

PRO SMALL TOWN

I oppose school consolidation and will fight for retaining local control and sovereignty over our local resources. Maine is founded on the small town.

PRO ECONOMIC GROWTH

I will support pro job, pro business growth initiatives that will create the opportunities to keep our young people in Maine, or more importantly, here in The County.

PRO ENERGY

I will support Maine's energy independence. I will encourage the development of Maine's own renewable environmentally conscious energy solutions.

NO NEW TAXES OR TAX INCREASES

Augusta must stop using our citizens like a personal ATM. It is time to reduce spending and hold the line on taxes.
